Pharmacy Network Value Plan

As part of the new Pharmacy Network Value Plan, you can save out-of-pocket costs when you fill your prescriptions at a Costco Wholesale pharmacy.

DID YOU KNOW?

- The cost to fill a prescription varies by pharmacy. Costco offers attractive pricing for prescription drugs through a combination of low dispensing fees and lower than average overall prescription costs.
- Membership isn't required to use a Costco pharmacy. When the greeter at the front entrance asks to see your membership card, just indicate you are there to use the pharmacy. You must be a Costco member to purchase any items other than prescription medications.
- Counselling services from Costco pharmacists are available to help you understand your medications and help you achieve the best possible health outcomes. You can also benefit from Costco pharmacy's complimentary health and wellness clinics.
- If you are a Costco member, you can take advantage of all their health-related products such as eyewear and hearing aids.
- You can still purchase your prescriptions at the pharmacy of your choice, but shopping at Costco can save you out-of-pocket expenses while directly reducing the cost of your benefit plan.

When you fill a prescription at Costco, you will be reimbursed at a 10% higher reimbursement rate, compared to having a prescription filled at another pharmacy.
