

MEMORANDUM

TO: Irving Flex Plan Members

DATE: October 1, 2019

SUBJECT: 2020 Health, Drug and Dental Premium Rates
Irving Pulp & Paper, Local 1888 & Local 30

The premium rates for the Health, Drug and Dental in the iFlex plan will increase by an average of 2.1% for the 2020 enrollment year. The new rates are shown in the table below.

The company’s fixed Flex Credits for 2020 will increase to cover the full increase in the benefit costs of the AAA modules as well as the increase in cost for Critical Conditions coverage. This means that most employees will see a minimal impact on their payroll deduction for 2020. Excess credits continue to be available to you to put into other module selections, HSA, RHIP (if applicable) or GRSP. Additional transitional credits have been provided to you this year. The credits are shown in the table below.
